

Fidelity Home Health Care is a full-service health care agency owned and managed by a Registered Nurse with 20 years of extensive clinical experience in direct patient care in hospital settings.

Our home health care experts will administer a similar level of care that is usually only provided in a hospital setting, allowing our clients to stay in the comfort of their home, close to loved ones.

Each client is assessed and each case is carefully reviewed to pair the client with the health professional best suited and most qualified for the services needed.

Coping with your health care challenges can be easier when you have the right people to back you up. Fidelity Home Health will be there to assist you in any way that we can. Please don't hesitate to give us a call at 215-710-0515 for immediate assistance from our staff.

The Agency's mission is to provide professional and paraprofessional services to clients in their homes assisting them to achieve the highest level of potential in their day-to-day self-care activities.

We are committed to providing high quality, multidisciplinary care by professionals who recognize the need for comprehensive assessment of needs from both the client's and the professional's point of view.

Medicare Certified and CHAP Accredited

Fidelity Home Health Care does not exclude, deny benefits to, or otherwise discriminate against any person on the grounds of race, gender, disability, color, national origin, age, religion, sexual orientation or ethnic background.
